

# Welcome to **SINTRA**

## Places not to miss

Quinta da Regaleira  
Pena Palace  
Moorish Castle

Beautiful Sintra competes with world-famous destinations, in the category of the most romantic cities in Europe. Considered a UNESCO World Heritage Site, it is particularly known for the stunning Quinta da Regaleira, the Pena Palace and the ruins of the Moorish Castle, which insist on peeking above the clouds. But Sintra is not just these three tourist spots that make it a special place, Sintra is also the quiet alleys, the colorful houses decorated with floral pots, the less known mountain trails, artisan shops, and the delicious pastry “queijadas de Sintra” and “Travesseiros”. Sanctuary of poets, chosen by kings, the intense green of the imposing mountains is dotted with palaces decorated with splendor and refinement, surrounded by idyllic gardens that make Sintra the perfect setting for fairy tales.
